Dominic Ajiton.A

Full Stack Developer | Building Scalable Web Applications with Expertise in Frontend & Backend Technologies

Nagercoil, Tamil Nadu, India

Summary

I bring a strong blend of technical expertise and a collaborative mindset. With experience in both front-end and back-end technologies, I’m proficient in frameworks like React, Nextjs, Nestjs and Node.js, along with database management using SQL and NoSQL. My work experience includes developing responsive web applications, optimizing performance, and implementing RESTful APIs.

I thrive in team environments and value clear communication, ensuring that I understand project requirements and contribute effectively to problem-solving discussions. I’m passionate about writing clean, maintainable code and staying updated with the latest industry trends. My goal is to create seamless user experiences while delivering robust, scalable solutions. I’m excited to take on new challenges and contribute to innovative projects!

Experience

Global Software Solutions

Full Stack Developer

April 2022 - Present (4 years 7 months)

Tirunelveli, Tamil Nadu, India

Education

St Xavier's catholic College of engineering
